Training Disc Part Number: 03235-10001

Produced: AUGUST 1986 Edition 1
Produced in U.S.A. E886

Table Of Contents

		<u>Page</u>
Introduction	General Introduction to User Training	Intro-1
<i>A. General System and Programming Topics</i>		
Lesson # A1	Functional and Mechanical Design	A1-1
Lesson # A2	Control Panel Operation	A2-1
Lesson # A3	Introduction to HP-IB Programming	A3-1
Lesson # A4	Addressing Frames, Slots, Channels, & Relays	A4-1
Lesson # A5	Reset and Clear	A5-1
<i>B. Switching Signals</i>		
Lesson # B1	Opening and Closing Relays and Channels	B1-1
Lesson # B2	Matrix Switching	B2-1
Lesson # B3	Using Multiplexers For Scanning Channels	B3-1
Lesson # B4	Setting Up Relay Multiplexer Configurations	B4-1
Lesson # B5	Prohibiting Closure of Selected Relays	B5-1
Lesson # B6	Connecting Multiplexers to an Analog Bus	B6-1
<i>C. Measurements And Scanning</i>		
Lesson # C1	Scanning With The Internal Multimeter	C1-1
Lesson # C2	Controlling The Scan	C2-1
Lesson # C3	Limit Checking: During And After The Scan	C3-1
Lesson # C4	Scanning With an External Measuring Device	C4-1
<i>D. Digital Inputs and Outputs</i>		
Lesson # D1	Digital Port Selection	D1-1
Lesson # D2	Digital Inputs	D2-1
Lesson # D3	Digital Outputs	D3-1
Lesson # D4	Digital Interrupts	D4-1
<i>E. Other Helpful Programming Topics</i>		
Lesson # E1	Using Subroutines	E1-1
Lesson # E2	Stored States	E2-1
Lesson # E3	Power Failure Configuration (HP 34501)	E3-1
Lesson # E4	Power Failure Configuration (HP 34504/34506)	E4-1
Lesson # E5	SRQ and Status Byte	E5-1
<i>Appendix</i>		
Appendix A	Module Functional Diagrams	Appendix A-1

Table D3-1.	Decimal Values vs. Bit Patterns	D3-7

HP 3235 User Documentation Map

The HP 3235 documentation diagram shown below lists the user manuals available for the HP 3235. In addition to these manuals, a service manual is also available. Check with your local HP Sales and Service office for the current HP part numbers.
